Unique topic song

Your bones

[Verse]

Your skull's on top
It holds your brain
Protects your thoughts from sun and rain
Jawbone's moving when you chew
It's all bone magic through and through

[Chorus]

Bones bones
They keep you tall
Bones bones
They catch your fall
From your head down to your toes
You're a walking pile of bones

[Verse 2]

Spine's the ladder in your back
Keeps you straight
No need to crack
Ribs are hugs for your heart and lungs
They play the beat where life is sung

[Chorus]

Bones bones
They keep you tall
Bones bones
They catch your fall
From your head down to your toes
You're a walking pile of bones

[Bridge]

Arms have humerus
Funny and strong
Legs with femurs help you walk along
Tiny toes

Wiggly and free
Phalanges
Oh so many
Whee!

[Chorus]
Bones bones
They keep you tall
Bones bones
They catch your fall
From your head down to your toes
You're a walking pile of bones
