Light and dark

[Verse]

Why is the sun so bright in the sky
And shadows on the ground just hide and lie
Some things glow and some stay gray
Why's it like that
What do you say

[Chorus]

Light bounces here
Light bounces there
It paints the world
It's everywhere
Dark stays quiet
It hides away
But both are friends
They're here to stay

[Verse 2]

A candle flickers
It makes a glow
The moon at night puts on a show
Your flashlight shines
Your shadow grows
Where light won't go
That's dark
You know

[Chorus]

Light bounces here
Light bounces there
It paints the world
It's everywhere
Dark stays quiet
It hides away
But both are friends
They're here to stay

[Bridge]

Light's like a dancer

Skipping around

Dark's like a blanket

Soft on the ground

One's for the morning

One's for the night

Together they make the world just right

[Chorus]

Light bounces here

Light bounces there

It paints the world

It's everywhere

Dark stays quiet

It hides away

But both are friends

They're here to stay
