Unique Song

[Verse]

Billions breathing under one sky
Mountains whisper while rivers cry
Footsteps heavy on a fragile ground
Trees fall silent
They don't make a sound

[Prechorus]

The oceans swell with our careless tide
Who will mourn the forests that died

[Chorus]

Crowded earth
We're running out of room
The clock keeps ticking
A rising monsoon
We take
We break
The cost unseen
Crowded earth
What does it mean

[Verse 2]

Plastic kingdoms float on the seas
Smoke climbs higher
Choking the breeze
Rainforests burn
Ash paints the air
Progress marches
But does it care

[Prechorus]

The ice is melting
The warnings scream
Do we still care for the planet's dream

[Chorus]

Crowded earth
We're running out of room
The clock keeps ticking
A rising monsoon
We take
We break
The cost unseen
Crowded earth
What does it mean
