

Curriculum Visions Unique topic song.

The first conquest of Mount Everest

[Verse]

The sky whispered low but the wind roared high  
A frozen stairway climbing the sky  
With ice in their boots and steel in their veins  
They faced the white dragon in a world of pain

[Prechorus]

Breath so thin it could barely stay  
One step closer to breaking day

[Chorus]

Summit of the world where the earth meets the stars  
Every breath a battle every heartbeat a scar  
Summit of the world where the heavens unfold  
Two souls in the cold chasing stories untold

[Verse 2]

The snow bit sharp like a hunter's blade  
The air was a thief but the dream stayed unscathed  
With every stumble the mountain laughed  
Yet they carved their names on its icy path

[Bridge]

They climbed where no shadow dared to creep  
Where silence sang and the void ran deep  
Through the howl of the storm through the shiver of frost  
Each step a kingdom gained each moment a cost

[Chorus]

Summit of the world where the earth meets the stars  
Every breath a battle every heartbeat a scar  
Summit of the world where the heavens unfold  
Two souls in the cold chasing stories untold
