

# Individual membership

The website is designed to support schools in their delivery of their curricula. But it can do much more. It can give help to some kinds (not all) of SEND requirements as well as challenging high flyers.

If you are considering the site for a SEND purpose, you have to decide if what is available meets your needs. You cannot ask us to add or alter materials, so think carefully. We will not offer advice or comment on materials in the context of SEND, as we are not qualified to do so.

Individual memberships are designed for home use. The membership should not be shared outside the purchasing family. The user name will be the applicants email, and the password what they set on application and cannot be changed.

Other than that, access is the same as for schools.

You have a choice:

1. £2 for a 2 day access pass so you can look around. You probably should start here. Once paid, it cannot be refunded.
2. Annual membership is a much better value, being £26 for a whole year. Once paid, it cannot be refunded. So start with the access pass.

To select one of these memberships (which are paid by credit card) just choose sign in (on the dashboard or the landing page) and sign in with the credentials of your choice.
