

Students: fill in next to the word answer and return the document for assessment.

Geography

The Coast Book

Everything here is based on our Curriculum Visions book The Coast Book.

In this segment we are going to think about beaches.

Pages 22-25

Part 1

Pages 22-23

Play the video on page 22.

What is the foaming water called?

Answer.....

Surf

The foaming water is made of two parts. What are they?

Answer.....

Swash and backwash.

Try to make up a simple poem to say what is happening.

You might start...

Here is a breaker on its way...

(Now carry on)

Answer.....

(depends on students)

Part 2

Pages 24-25

First play any video on page 24.

What is the beach made from? Why is it so noisy?

Answer.....

Pebbles. The pebbles are bumping over one another.

Which kind of beach has pebbles: gentle or steep?

Answer.....

Steep

What do you find on gently sloping beaches?

Answer.....

Sand

The picture at the top of page 24 suggests the beach is not just made of bits of broken rock, but something else, too. What is it?

Answer.....

Broken shells

Look at the diagram on page 24. Do we find gently sloping beaches in the shelter of a headland or where the gales can blow most fiercely?

Answer.....

More sheltered.

That is the end of this worksheet, and you can now turn to another one. Also, find out if your teacher has left you any other worksheets or special instructions on your school website.

If you interested in this topic continue to browse the book and watch our amazing videos. They start right on the book cover.

Or you may want to see related books. If so just go to the top of the screen, select Geography, and from the page that opens choose Coast.
