

The parts of a plant

Plants have roots, stems, leaves and flowers.

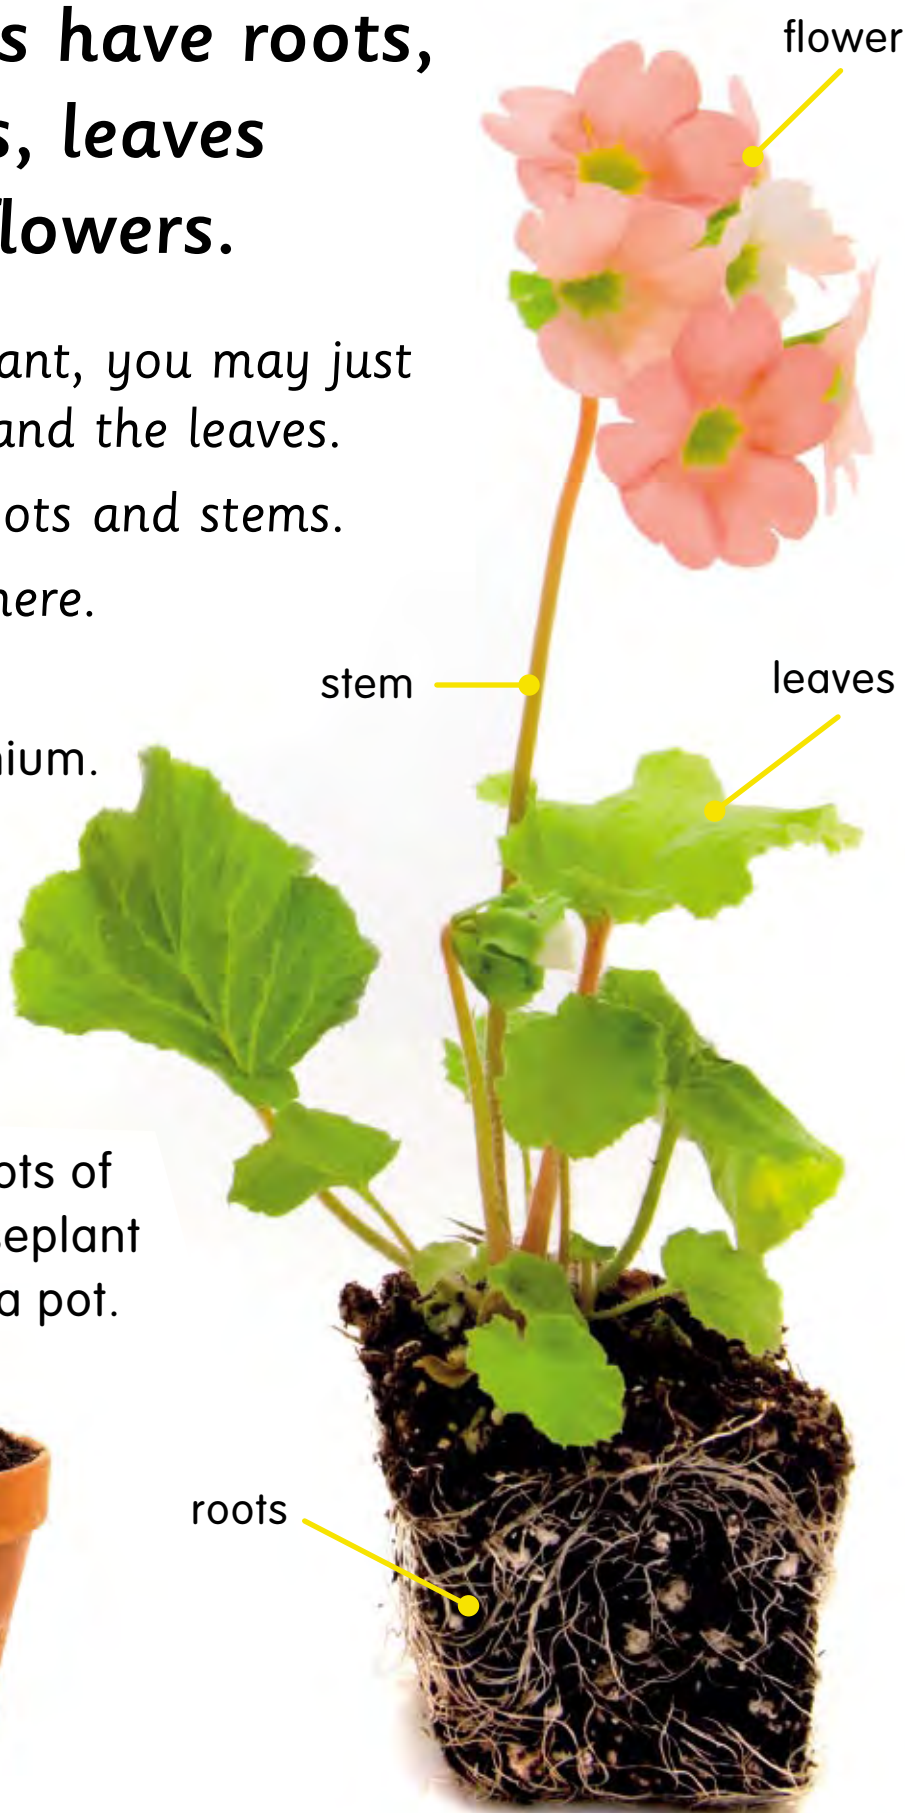

When you see a plant, you may just notice the flowers and the leaves.

Plants also have roots and stems.

You can see them here.

This is a geranium.

The roots of a houseplant are in a pot.

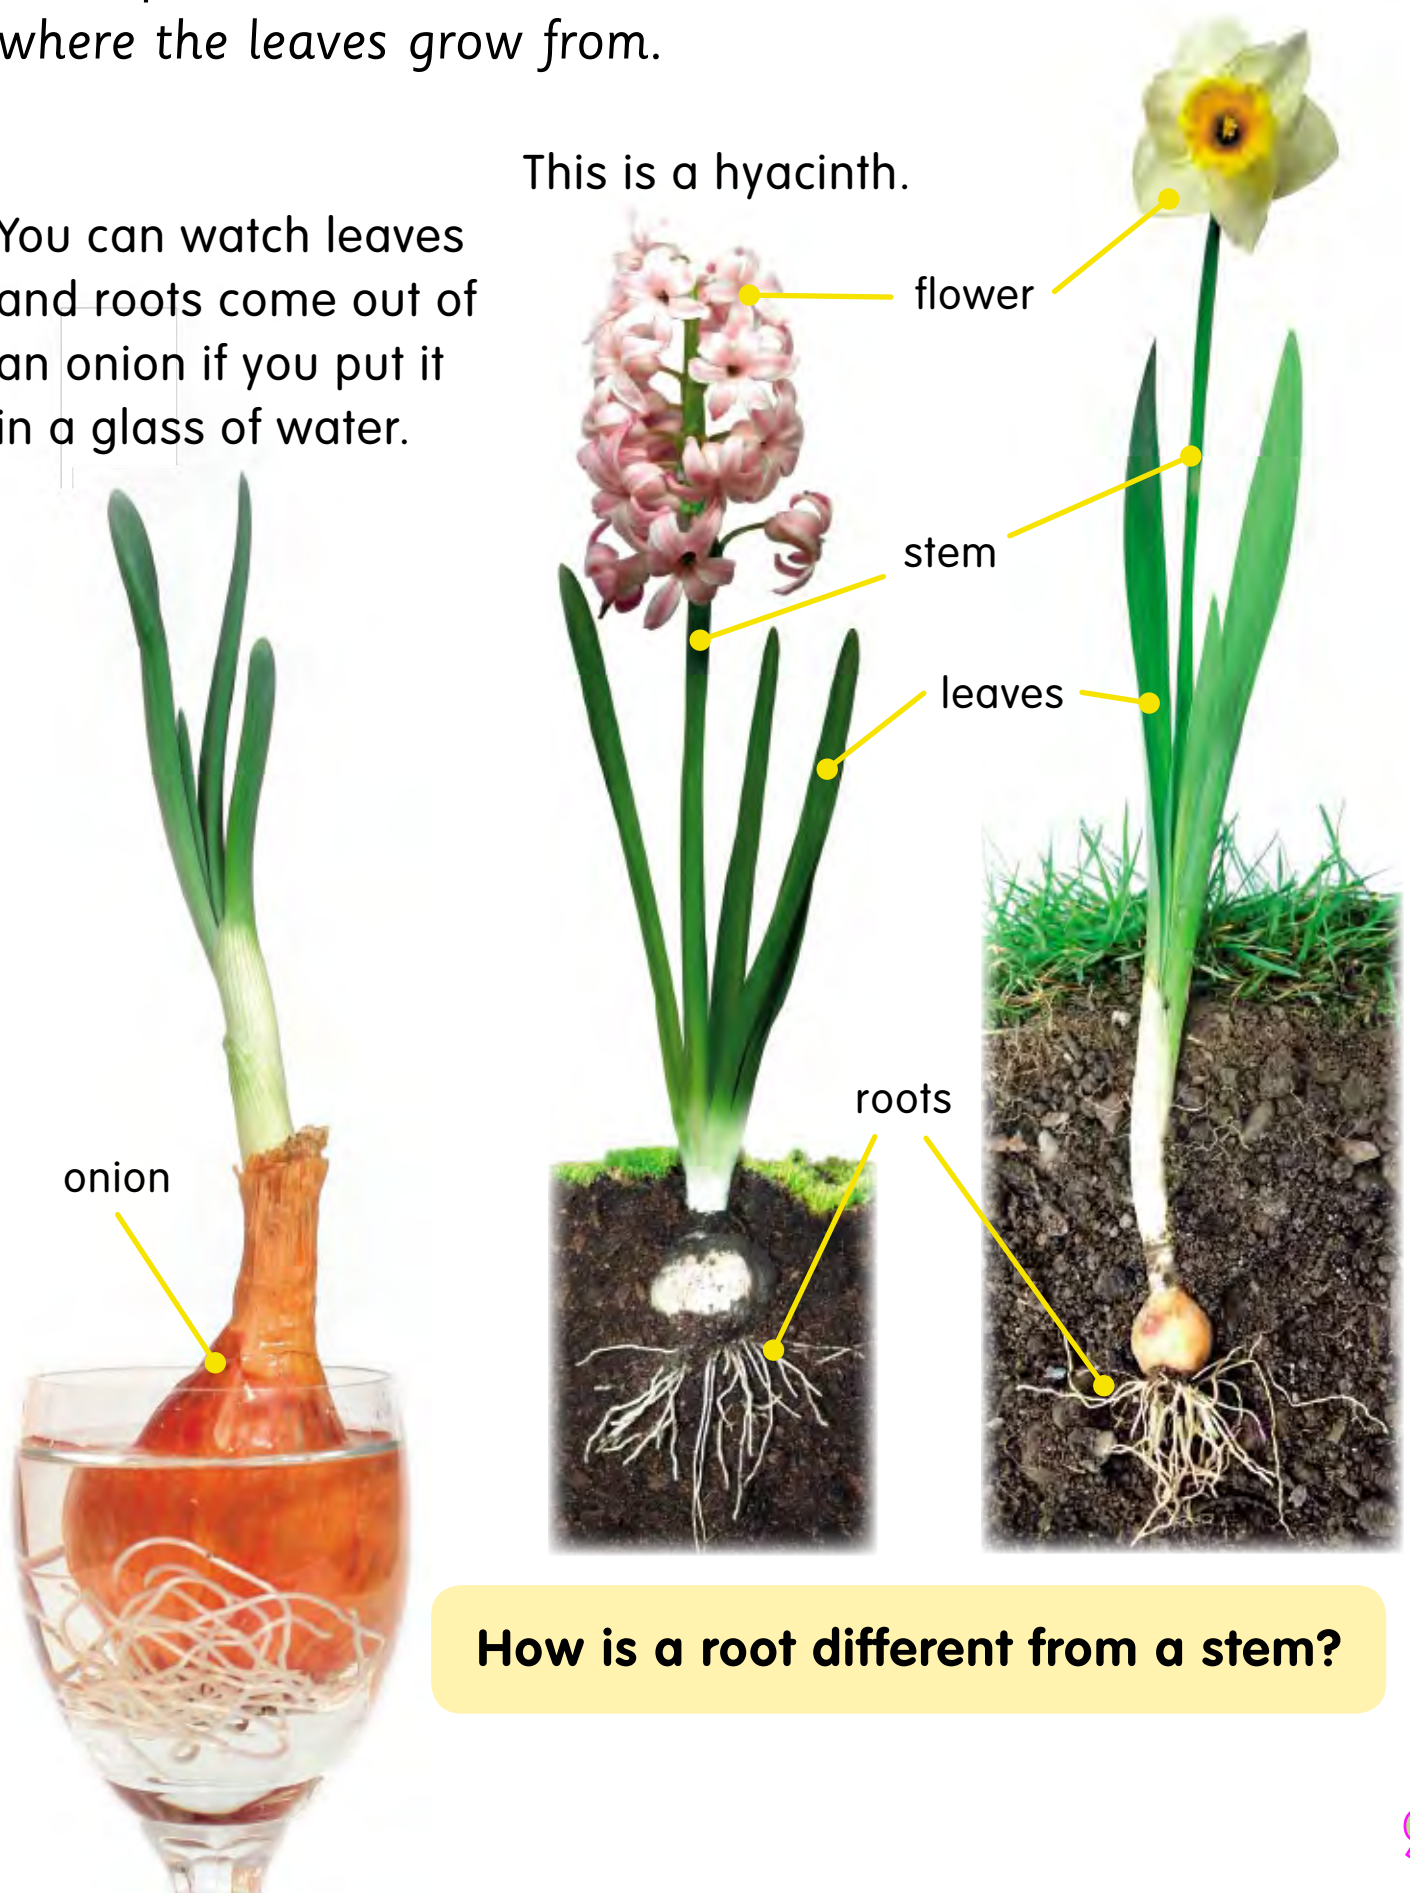

Some plants have bulbs. Bulbs are where the leaves grow from.

This is a daffodil.

You can watch leaves and roots come out of an onion if you put it in a glass of water.

This is a hyacinth.

How is a root different from a stem?
