

Sorting

You can sort materials in lots of ways.

shell

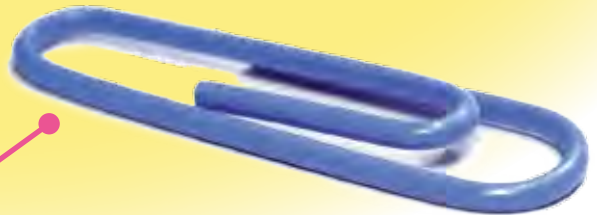

Many things feel the same. They may be soft. They may be smooth. They may be shiny.

Here we have grouped some things by how they feel – hard, soft, smooth and rough.

sharpener

These materials are hard.

paperclip

gloves

These materials are soft.

bread

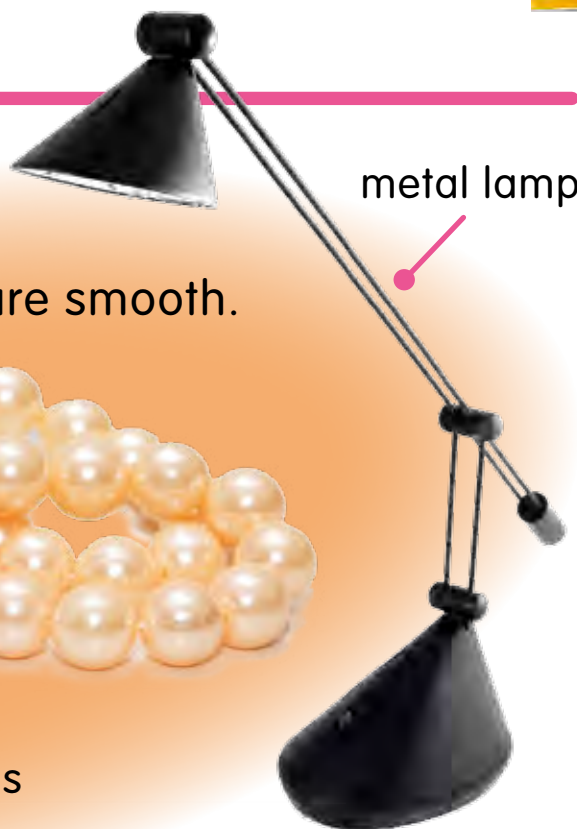

These materials are smooth.

pebbles

pearls

metal lamp

basket

These materials are rough.

brick

sponge

Can you sort these materials into some different groups?
