

Waterproof

**Waterproof materials
keep water out.**

Waterproof materials do not let water go through them.

You can stay dry under waterproof materials when it rains.

Some materials let water pass through them. You can get wet underneath them when it rains.

Most clothes are not waterproof.
We clean them by getting them wet.

Hair is not waterproof,
but skin is waterproof.

Water stays on the skin of this apple.
The apple skin is waterproof.

Wellies are waterproof.

Anoraks are made of waterproof material.

An umbrella and poncho are waterproof.

How could you test a material to see if it is waterproof?
