

# Using materials

If we know what materials do,  
we know where to use them.

Look around you.

There are many materials.

This is because people  
have chosen the best  
materials for the job.

Cane is bendy  
and is used to  
make baskets.

Brick is strong and is  
used to make walls.

brick wall

Wood is hard and smooth and used to make tables, boxes and beds.

Steel is a strong material and is used for making cars.

**Is glass useful for making trousers?**
