

Pushing

We can move things when we push them.

You push a pram.

You push your teeth together when you eat.
You squash your fingers together to hold the sandwich.

We use many words for pushing.

We can say squeezing.

We can say pressing.

We can say punching.

We can say tapping.

We can say squashing.

You tap a key when
you use a computer.

You push down on the
handle to open the door.

You push your toothbrush
up and down when you
clean your teeth.

Do you push a ball when you kick it?
