

Stopping

Moving things
can stop slowly
or quickly.

It is easy to stop small things moving.
You can stop a ball quickly.

It is hard to stop large things.
A train is large. It cannot stop quickly.

A lorry is a large thing.
It cannot stop quickly.

You can stop a ball quickly because it is small.

When cars travel slowly they can stop in a shorter distance.

An amber light on its own tells cars to get ready to stop.

What rules do you know for crossing the road safely?
