

# Differences in people

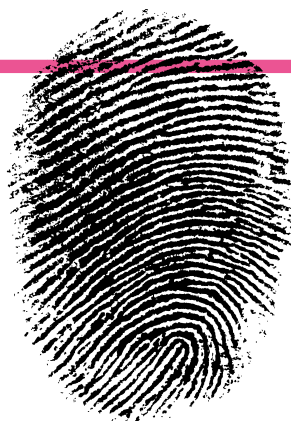

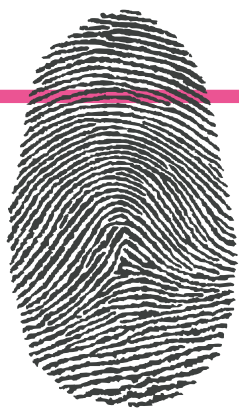

Everyone is different.  
For example, everyone  
has a different face and  
everyone has different  
fingerprints. Everyone  
thinks differently, too.

Curly hair

Straight hair

These fingerprints are all very different!

People vary in many ways. Some people have red hair. Some have yellow, brown or black hair. Some people have darker skin. Some people have lighter skin. Some people have blue eyes and some have brown eyes. Some people are shorter, and others are taller.

**In which ways are these people different?**
