

# Plants and animals

Living things can be divided up into two big groups. They are the plants and the animals.

Here are some plants.  
They have stems,  
leaves and flowers.

Fern

Poppy flowers

Oak tree

Spruce tree

Can you think of more plants to put in the plant group?

Here are some animals.  
They have heads and bodies  
and they move about.

Dog

Tarantula spider

Ourselves

Snail

Canaries

Lobster

**Can you think of more animals to put in the animal group?**
