

Different animals

When we look at animals we can see that there are many different kinds in the world.

Parrot

Snake

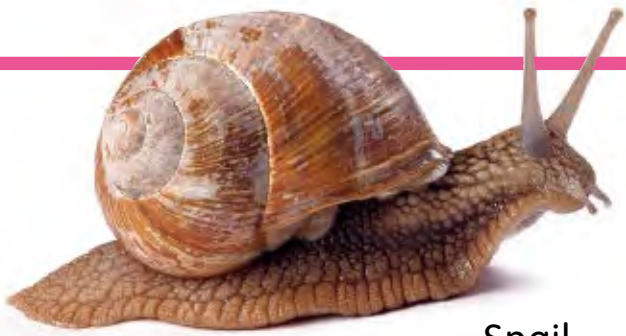

Toad

Cat

Snail

Animals are different in many ways. Some are smaller than others, some live longer lives. Some, like a toad, have slimy skins. Some, like a cat, have fur. Some, like a cow, have hooves. Some, like a snail, have shells, and some, like a snake, have scales. Some, like a parrot, have feathers, and some, like a dolphin, have flippers.

Wild boar

Dolphin

How are you different from the animals in these pictures?
