Foods that do the same job

There are many different kinds of foods, but they can all be placed into just five easy-to-remember groups.

Q1. Look at the foods in the diagram.
Which group does each food belong to?
Write the letter of each food in the correct place in the table.

Food group	Food
Vegetables	
Fruit	
Cereals	
Meat and eggs	
Dairy products	

Q2. Which part of a plant may form a vegetable?

Q3. What are the pips in fruit?

Q4. Name two cereals.

.....

Q5. Name three farm animals that are reared for their meat.

.....

Q6. Why is yoghurt in the dairy group?

.....

.....
