

Name: Form:

Based on pages 4 and 5 of *Rocks and soils*

Using a rock key

Try this...

1. Look at the collection of rocks you have been given by your Teacher. Take each rock in turn and use the key below to identify it.

2. Write the identification letter of the rock in the first column of the table.

3. Use the rock key to identify the rocks in a collection of small pieces of rock. Write the name of the rock in the second column of the table.

4. Which kind of rock made up the most pieces?

Identification letter	Type of rock
