

Name: ..... Form: .....

Based on pages 22 and 23 of *Rocks and soils*

# Which soils hold onto water?

**Try this...**

1. You have two samples of dry soil. You have to see which one holds onto the most water. Think about how you will do the test.

2. Write down the things you will need.

 .....

 .....

 .....

3. Write down what you will do (you may make a drawing too).

 .....

 .....

 .....

 .....

4. Try your test and write down your result.

 .....

**Looking at your results.**

5. What do your results show?

 .....
