Based on pages 16 and 17 of *Springs and magnets*

# Testing the strength of magnets

Try this...

1. Make a collection of magnets.
2. Plan a way to test their strength.

.....

.....

.....

.....

.....

3. Make a table in which to record your results.

4. Show your plan and table to your teacher. If your teacher approves, try your test.

**Looking at the results.**

5. What do the results show?

.....

.....
