

Name: ..... Form: .....

Based on pages 8 and 9 of *Habitats*

# Using a plant key

Try this...

1. Look at the plant key and make sure you know how it works.
2. Use the plant key to identify some of the plants growing outside.

3. On a separate sheet of paper write down the habitat of each plant you identify.

**Looking at the results.**

4. Do any plants share the same habitat? Name them and describe the habitat.
5. Do any plants live on their own in a habitat? Name them and describe the habitat.
