# The growth of a baby

Try this...

1. The table shows how the length of a baby's body changed as it grew inside its mother.

Age (weeks)	Length (cm)
0	0
8	2
10	6
20	20
30	28
38	48

Length (cm)

Answer these questions about the table above.

(i) How much did the baby grow between week 8 and week 10?

.....

(ii) How much did the baby grow between week 20 and week 38?

.....

2. Mark on the graph above the length of the baby at weeks 0, 8, 10, 20, 30 and 38. Draw a line joining up the points you have marked.

3. Answer these questions about the graph.

(iii) At age 15 weeks, what was the length of the baby? .....

(iv) At age 25 weeks, what was the length of the baby? .....

(v) At age 35 weeks, what was the length of the baby? .....
