How plants defend themselves

If living things are to survive, they must have lots of ways of protecting themselves.

Q1. On the diagram label a main stem and a frond.

Q2. How does the main stem help the plant survive?

.....

.....

Q3. How does bracken stop other plants growing near it?

.....

.....

Q4. Why do some animals avoid bracken?

.....

.....

Q5. How does a rose plant defend its branches?

.....

Q6. Why do plants need to defend themselves?

.....

.....
