

Science  
Cells and digestion  
Book: Body Book  
Pages 8-15

Students: Fill in the answers and return for assessment

Everything here is based on our Curriculum Visions Body Book.

In this segment, we are going to learn about cells and how the digestion system works.

You will need to go to pages 8-9 of the book.

Part 1

In your own words, what is a cell?  
Draw a picture of a cell.

Answer ...

Now turn to pages 10-11 of the book.

Part 2

Fill in the chart below.

	How is it used by the body?	What foods can it be found in?
Sugar		
Starch/carbohydrate		
Fat		
Protein		
Vitamins		
Minerals		

Part 3

Think about what you ate for a recent meal, such as breakfast or lunch. Make a list of the foods you ate and write down whether they contain starches/carbohydrates, fats, proteins, vitamins, and/or minerals.

Answer ...

Now turn to pages 12-13 of the book.

#### Part 4

Write down how each of these parts of the mouth help us to eat:

Teeth

Tongue

Glands

Lips

Answer ...

#### Part 5

Describe what can happen if we do not look after our teeth by brushing and flossing after we eat.

Answer ...

Now turn to pages 14-15 of the book.

#### Part 6

Imagine that you are eating an apple. Describe what happens to it as it moves through each part of the digestive system (from mouth to stomach, small intestine, and large intestine).

Answer ...

That is the end of this worksheet, and you can now turn to another one. Also, find out if your teacher has left you any other worksheets or special instructions on your school website.

If you are interested in this topic, continue to browse the book and watch our amazing videos. They start right on the book cover.

Or you may want to see related books. If so just go to the top of the screen, select science, and from the page that opens choose Body Book.
