Book: Living Things in Their Environment

Pages 34-39

Students: Fill in the answers and return for assessment

Everything here is based on our Curriculum Visions book Living Things in Their Environment.

In this segment, we are going to learn about the importance of stewardship of the natural environment.

You will need to go to pages 34-35 of the book.

Part 1

Why do meadows have so many different kinds of grasses and flowering plants?

Answer ...

Why do meadows have so many winged hunters?

Answer ...

Why do you think meadows have so many types of animals that live below the surface?

Answer ...

Now turn to pages 36-37 of the book.

Part 2

Why is straightening and cleaning out a river an example of bad stewardship? Why do you think it is done if it is bad stewardship?

Answer ...

Now turn to pages 38-39 of the book.

Part 3

Draw and label a plan for a country park that will be good for the environment and show good stewardship of the environment.

Answer ...

That is the end of this worksheet, and you can now turn to another one. Also, find out if your teacher has left you any other worksheets or special instructions on your school website.

If you are interested in this topic continue to browse the book and watch our amazing videos. They start right on the book cover.

Or you may want to see related books. If so just go to the top of the screen, select science, and from the page that opens choose Living Things in Their Environment.
