Book: Living Things in Their Environment

Pages 40-45

Students: Fill in the answers and return for assessment

Everything here is based on our Curriculum Visions book Living Things in Their Environment.

In this segment, we are going to learn about ways to investigate different habitats.

You will need to go to pages 40-41 of the book.

Part 1

If your teacher agrees, make a survey of the plants that you can find in a nearby area, such as the area around your school, in a local park or near where you live. What plants are common? Where are different plants found? What plants can you identify?

Answer ...

Now turn to pages 42-43 of the book.

Part 2

Make a plan for how to investigate a mini-habitat near your school or home.

Answer ...

Now turn to pages 44-45 of the book.

Part 3

Make a plan for how to build a habitat for earthworms. If your teacher agrees, carry out your plan. Observe the earthworms over time. How do the earthworms change the soil.

Answer ...

That is the end of this worksheet, and you can now turn to another one. Also, find out if your teacher has left you any other worksheets or special instructions on your school website.

If you are interested in this topic continue to browse the book and watch our amazing videos. They start right on the book cover.

Or you may want to see related books. If so just go to the top of the screen, select science, and from the page that opens choose Living Things in Their Environment.
