Habitats 1
Book: The Plant Book
Pages 34-39

Students: Fill in the answers and return for assessment

Everything here is based on our Curriculum Visions book The Plant Book.

In this segment, we are going to learn about different plant habitats, including water and woodland.

You will need to go to pages 34-35 of the book.

Part 1

In your own words, describe what a habitat is.

What is one habitat that is located near to where you live?

Answer ...

Now turn to pages 36-37 of the book.

Part 2

Draw or describe in words how the woodland changes throughout the seasons. Include what happens to the plants and animals in the different seasons.

Answer ...

Now turn to pages 38-39 of the book.

Part 3

How have these different plants adapted to life in the water?

Plants at the edge of the pond:

Plants that grow underwater:

Plants that float:

Answer ...

That is the end of this worksheet, and you can now turn to another one. Also, find out if your teacher has left you any other worksheets or special instructions on your school website.

If you are interested in this topic, continue to browse the book and watch our amazing videos. They start right on the book cover.

Or you may want to see related books. If so just go to the top of the screen, select science, and from the page that opens choose The Plant Book.
